

Samsung SMART Signage QM32R

Highlights

- New symmetrical, slim design simplifies installation and complements any environment
- Affordable digital signage that supports 24/7 operation and 400nit brightness
- All-in-one display solution with embedded MagicINFO Player S6 powered by TIZEN™
- Secure, PC-free operation through Knox and rigid three-layer protection

Slim and symmetrical design

The all-new slim and symmetrical design of the QM32R significantly simplifies wall mounting the display and ensures installation is a seamless process. The display's power inlet direction has been redesigned to sit flush against the wall. The new design sets guarantees a long life cycle ensuring the QM32R will stand the test of time.

Attract customers with optimized 24/7 performance

Engage customers and vividly display business messaging with affordable Samsung SMART Signage QM32R, featuring high picture quality with 400nit brightness and reliable 24/7 usage. QM32R displays stunningly present a range of immersive and timely information with captivating picture quality.

Powerful, all-in-one solution

The Samsung SMART Signage Platform (SSSP) is an open-source, all-in-one solution embedded in Samsung SMART signage that simplifies installation and maintenance. With SSSP, there is no need for any external devices to communicate with the server or play digital media enjoying easy development, reinforced capability with multiple web formats, and secured protection.

Samsung Workspace secured by Knox

Samsung Workspace is a powerful new feature fortified by proprietary Knox security technology allowing users to create an enhanced virtual collaboration workspace without needing a PC in the room, or any physical connection. Simply connect a keyboard and mouse to the display and immediately get to work accessing a PC remotely or web-based cloud services such as Microsoft Office 365 and VMWare Horizon.

Wi-Fi and Bluetooth built-in

The QM32R features a nearly endless range of business use-cases thanks to built-in Wi-Fi and Bluetooth. Wireless connectivity allows for personalized and interactive services including enabling integration with beacon technology in store, while also simplifying how businesses showcase content.

Clean cable management

In a corporate or retail environment, the back of a display is often visible to customers. With the QM32R's new cable guide feature retailers can tuck messy cables away from view. This allows for a clean and more visually-appealing customer shopping experience.
